- Removable inner glass door panel
- Removable side racks
- Large viewing window
- Cavity cooling system
- Available with LPG conversion
- Connection: 15amp

### Accessories

- Glass lid (optional)
- Kick panel (optional)

### Precision

Large control knobs allow precise temperature levels to be reached, whilst the triple ring wok burner provides high heat at even distribution levels.

### Large viewing window

Easily check the progress of your meal without having to open the door and let hot air escape

### Cavity cooling system

Our cavity cooling system effectively pulls heat away from the outside of the oven. This unique process keeps the door, controls and handle cool, while helping to protect surrounding cabinets from heat damage.

### Triple glazed cool touch door

Three layers of glazing keep heat in so your food cooks quickly and efficiently. Triple glazing also limits the amount of heat that can escape, so the door remains cool to touch. This is a handy safety feature for little fingers.

### Easy to clean

The easy clean interior, removable door, and removable side racks allow for food particles to be easily wiped away.

### Design

This cooktop has been designed to compliment all of the cooking appliances in the Technika Professional range.

## 700mm Duel Fuel Upright Cooker
