- 5 shelf positions
- Dual telescopic shelves
- Closed door grilling
- Twin lights
- Easy clean interior
- Large viewing window
- Rotisserie
- Automatic safety cut off
- Cavity cooling system
- Connection: 20 amp

#### UPPER MODE

#### SINGLE MODE

#### LOWER MODE

#### TWIN MODE

#### Split oven

A divider in the centre of this oven allows it to be split into two so you can cook on two different levels at two different temperatures with two different cooking functions.

#### Cavity cooling system

Our cavity cooling system effectively pulls heat away from the outside of the oven. This unique process keeps the door, controls and handle cool, while helping to protect surrounding cabinets from heat damage.

#### Dual telescopic shelves

The dual telescopic shelves are strong enough to hold even the heaviest cookware.

#### Soft close hinges

Soft close hinges are designed to decelerate the closing action of cabinet doors to reduce noise and wear.

#### Triple glazed cool touch door

Three layers of glazing keep heat in so your food cooks quickly and efficiently. Triple glazing also limits the amount of heat that can escape, so the door remains cool to touch. This is a handy safety feature for little fingers.

#### Easy to clean

The easy clean interior, removable door, and removable side racks allow for food particles to be easily wiped away.

#### Premium oven seal

Premium oven seal is made of fibreglass braid and designed for ultra high temperatures and long life

#### Design

This cooktop has been designed to compliment all of the cooking appliances in the Technika Professional range.

### **READ THE INSTRUCTION BOOKLET BEFORE INSTALLING AND USING THE APPLIANCE.**

The manufacturer will not be responsible for any damage to property or to persons caused by incorrect installation or improper use of the appliance. The manufacturer is not responsible for any inaccuracies, due to printing or transcription errors, contained in this handout. In addition, the appearance of the figures reported is also purely indicative.

The manufacturer reserves the right to make changes to its products when considered necessary and useful, without affecting the essential safety and operating characteristics.

Technika constantly seeks ways to improve the specifications and designs of their products.

Whilst every effort is made to produce up to date literature, this document should not be regarded as an infallible guide.

Actual product only should be used to derive cut out sizes.

All Technika Appliances must be installed by a qualified person/s with adherence to the relevant electrical, plumbing and AGA codes, with compliance being issued as required by state or national legislation.

Additionally all Technika Upright cookers must have chains installed correctly in adherence to the relevant AGA, and plumbing codes by the Licenced installer.

For maximum effectiveness and efficiency all rangehoods should be installed with the use of ductwork, by a licenced installer with adherence to the relevant state and national building codes and regulations.

All Technika appliances are for Domestic use only, and must be installed by a licence installer into Domestic Applications only, without exception and to the required Authorities guidelines. Any installation outside of this will VOID warranty. Alfresco areas are not a Domestic application.
